**Re: SUPPLEMENT TO E911 PHASE II STATUS REPORT**

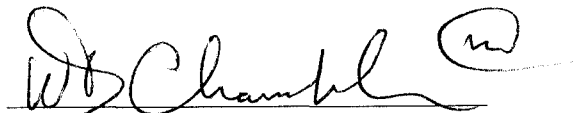

Dear Ms. Salas:

In response to the Wireless Bureau's written request<sup>1</sup>, we hereby supplement our report on the status of implementation plans for Wireless E911 Phase II Automatic Location Information.

This supplement is to clarify that Conestoga has chosen to employ the same hybrid ALI approach as VoiceStream Wireless ("VoiceStream"), which was the subject for a request for waiver addressed by the Commission in its *Fourth Memorandum Opinion and Order* in the E-911 Docket (CC Docket No. 94-102).

Respectfully submitted,

**CONESTOGA WIRELESS COMPANY**
